RESPONSE APPLICATION

The response application has been designed to help businesses respond to incidents in a planned and coordinated way.

The BOG Response App is a central place where key actions and decisions made when responding to an incident, can be detailed and recorded.

It's made up of 3 key areas:

- People
- Plans
- Incidents

People

This is where we see all people in the organisation and all imported external contacts.

Plans

This is where all the plans are listed. You can assign teams, external contacts, checklist and tasks to each plan. Plans can then be applied to future incidents.

Incidents

This lists all current incidents. It contains tasks, actions, checklists and the people associated with the incident.

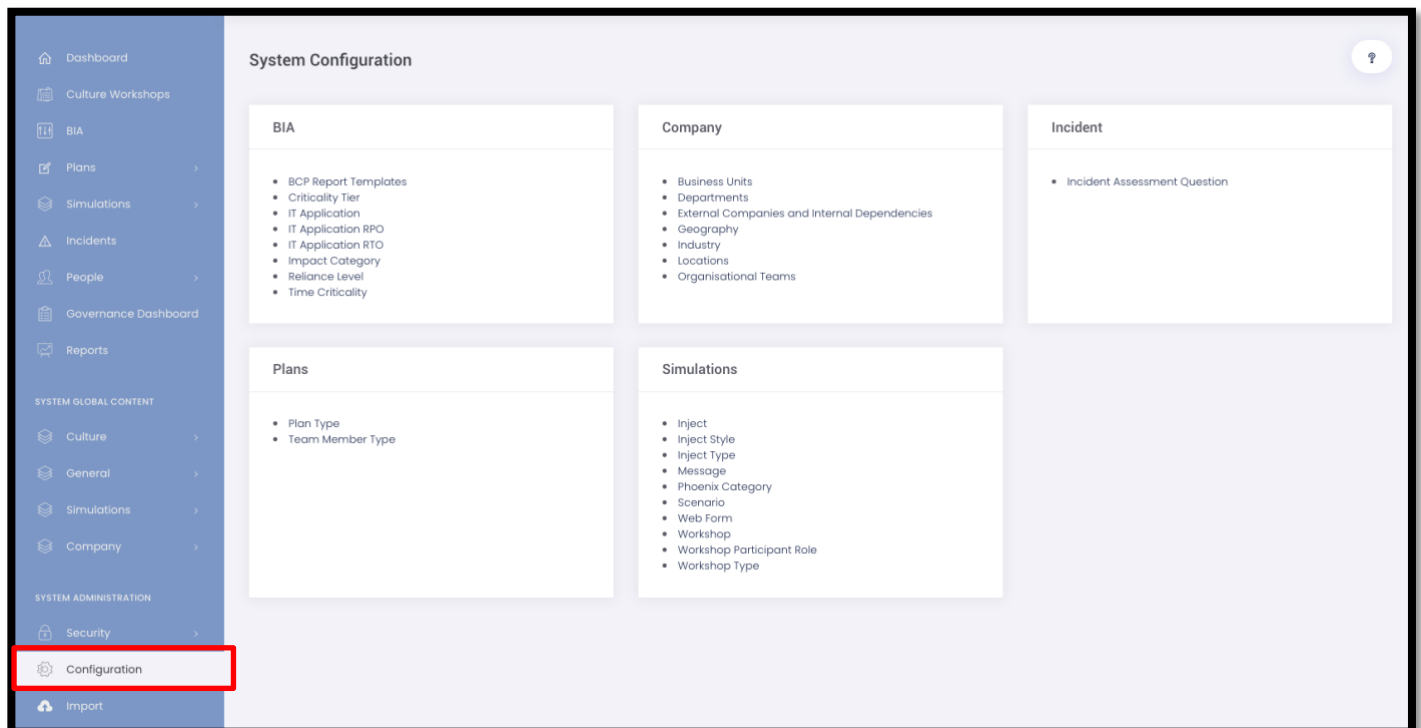

SYSTEM CONFIGURATION

The Configuration area is important as it allows you to set up details that are specific to your business and will later be used as part of People, Plans and Incidents.

Before you start, you'll need to document and adjust all the configuration items for Company, Incident and Plans. This can be setup through 'Configuration'.

The Configuration tab is located in the left menu bar. Clicking this will display the below page. Only users with administration access can access this area.

SYSTEM CONFIG - COMPANY

BUSINESS UNITS

There are three (3) levels of organisation structure in Battleground; Business Units, Department and Teams.

Here is where you can add all the business units found in your organisation.

Business Units

A + Add Business Unit < Back to Config

B This table allows re-ordering of rows. Click and drag the icon to re-order them.

Search...

Excel

Title	Status	
Executives and General Management	Active	C [Edit] [Delete]
Infrastructure and Maintenance	Active	[Edit] [Delete]
Operations	Active	[Edit] [Delete]
Production	Active	[Edit] [Delete]
Services	Active	[Edit] [Delete]
Group Risk	Active	[Edit] [Delete]

Showing 1 to 6 of 6 entries

- A.** Add Business Unit: Click this to add a new business unit. A new screen will appear.
- B.** Order of Rows: Click and hold this icon to rearrange the order of your list.
- C.** Actions: Here you will see the options to edit and delete each business unit.

DEPARTMENTS

There are three (3) levels of organisation structure in Battleground; Business Units, Department and Teams.

Here is where you can add all your organisation's departments. You can also add business units within this section.

Departments + Add Department < Back to Config

ⓘ This table allows re-ordering of rows. Click and drag the ≡ icon to re-order them.

- B.** Order of Rows: Click and hold this icon to rearrange the order of your list.
- C.** Top Menu: Click the button on the left to refresh the list, or the 'Excel' button to export the list to an Excel spreadsheet.
- D.** Actions: Here you will see the options to edit and delete each department.

Adding a Department

The below screen will appear when you click 'Add Department'.

The screenshot shows a modal window titled "Add Department" with a close button (X) in the top right corner. The form contains four fields: "Department Name" (text input), "Status" (dropdown menu with "Active" selected), "Description" (text area), and "Business Unit" (dropdown menu with "Select an option" and a plus icon to add new units). At the bottom right, there are two buttons: "Cancel" and "Save & close".

At the bottom you will have an option to select a business unit. If the business unit does not appear in the list, you have the option to add the business unit in this screen.

EXTERNAL COMPANIES AND INTERNAL DEPENDENCIES

Across the battleground app, there is reference to external companies and contacts. Additionally, within the BIA module, there is references to dependencies that are internal to your organisation. Here is where you can add this data.

- D.** Actions: Here you will see the options to edit and delete each plan type.

TEAM MEMBER TYPES

Battleground Response has the concept of Response Teams. Response teams are a collection of people called Team Members, that are associated both Roles and Types.

Roles are the functional role that person is required to perform as part of the Response Plan they are associated to (e.g. Crisis Team Leader, Communication Officer etc.)

Team Member Types are associated with the combination of a Team Member and a Role and are often used as a distinguishing variable between duplicates (e.g. Primary, Secondary, Tertiary etc)

Here is where you can add your team member types.

Team Member Types

A. New User: takes you to adding a new user template.

B. Number of Results: click the grey box and a drop down will appear to the change number of results per page

C. Actions: here you will see the options to:

- Edit
- Suspend
- Delete
- Impersonate (only available for...)

D. Expand: click the purple plus to view the user's mobile number.

E. Function Bar: select a heading and it will filter results based on the heading except the check box.

- Check box ☐ : clicking this will select all, or you can select individual users by clicking on the box in front of their name.
- Name
- Email
- Company
- Teams
- Roles
- Status

F. Refresh: this will refresh the list of users.

G. Search: enter keywords to find a specific user.

CREATE A NEW USER

Pressing the '+ New User' button on the main user's page will bring you to the below screen:

The screenshot shows the 'Create User' interface. At the top left is a '+ New User' button. The main form is titled 'Create User' and has three tabs: 'Profile', 'Security', and 'Teams'. The 'Profile' tab is active, showing '1. Personal Details' with input fields for First Name, Last Name, Email, Occupation, Company Name, Phone Number, and Mobile Number. A red '1.' is placed over the Last Name field. To the right, the 'Status' section shows a dropdown menu with 'Profile Incomplete' selected, with a red '2.' next to it. Below that, the 'Set Roles' section lists roles with checkboxes: SuperUser, Team Admin, Manager, User, Culture Manager, and Culture Admin. A red '3.' is placed over the 'User' checkbox.

1. Create a User:

Password Confirm

Password Confirm

Teams

Navigate to this tab to assign the user to a team. Click in the box to bring up drop list of options.

Profile

Security

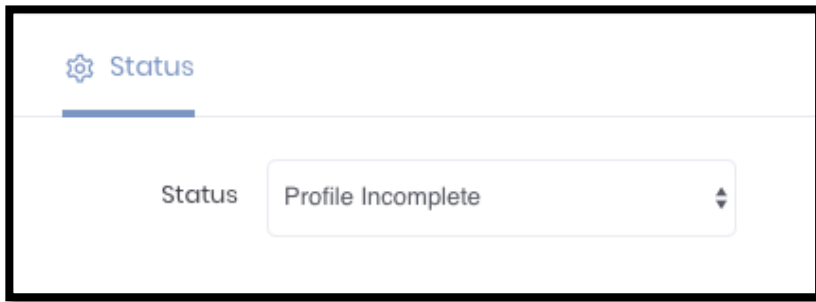

Teams

1. Assign Teams

Teams

Each user must have at least 1 team assigned. The system will not allow removing a user from a team if they are only assigned to one team.

STATUS

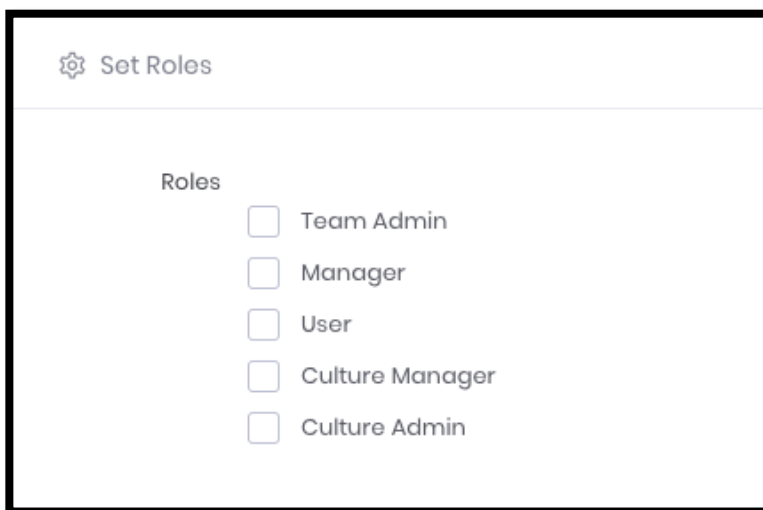

Here you have the option to move the user status to:

- Profile Incomplete
- Active or
- Suspended

SET ROLES

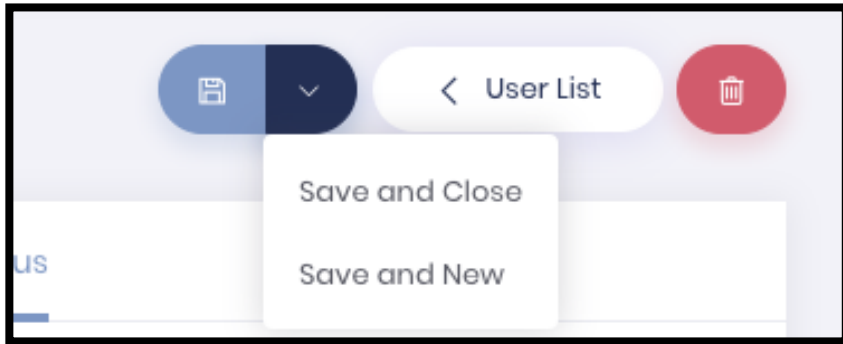

Security roles define the access that the user has within the application.

Select what roles the new user will have, this will affect their security permissions:

- Team Admin: Gives you administrator access for all functions and features for your team.
- Manager:
- User: General staff member access.
- Culture Manager: Special permissions for the risk culture module.
- Culture Admin: Special administrator permissions for risk culture module.

SAVE

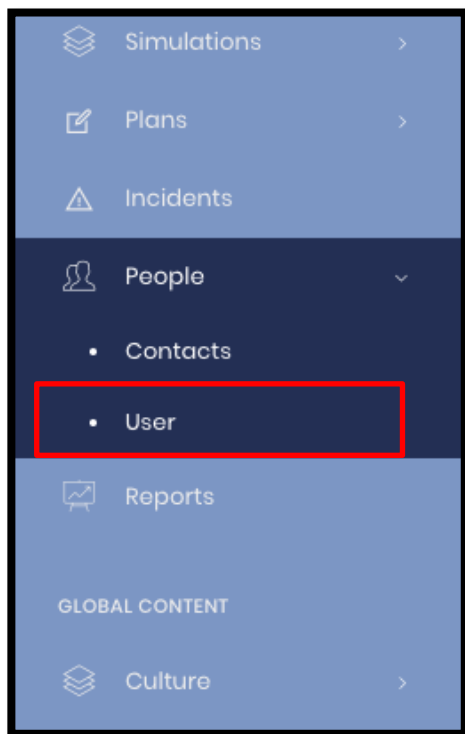

Once you have completed all sections you will need to save the user. This is located in the top right-hand corner.

Clicking the drop-down arrow will give the option to:

- Save and Close
- Save and New

EDIT A USER

To edit a user, first go to the Users page which is located in the left-hand menu bar under People.

You will be taken to the following page. Locate the pencil icon under Actions this will take you to the edit screen.

PLANS

To start you'll need to go to the 'Plans' tab.

Clicking the 'Plans' option on the left-hand side will produce a drop-down list, click 'Plans' again to get to this screen. You will be directed to the below screen.

After clicking on company list under companies in the navigation menu you will be directed to a new screen which will look similar to the image below:

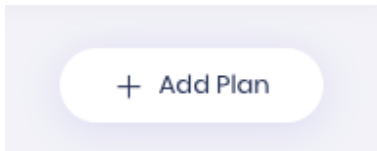

- A.** Add Plan: allows you to create a new plan.
- B.** Show Filters: toggle switch on to show 'Plan Type'.
- C.** Number of Results: click the grey box and a drop down will appear to change number of results per page.
- D.** Actions: here you will see the options to:
 - Edit your plan 
 - Delete your plan 
- E.** Function Bar: you can sort your results by clicking on the heading you would like to sort by.
 - Title
 - Description
 - Status
 - Owner
 - Business Unit
 - Department
- F.** Search options:

- Refresh: allows you to refresh the list.
- Column chooser: add or remove headings from your function bar.
- Excel: export your results into an Excel document.

G. Search box: use this to search for a specific plan.

CREATE A PLAN

To create a new plan, select the new plan button in the top right-hand corner of the plans screen.

The following screen will appear.

- E.** Title: add the title of your plan.
- F.** Description: add a description of your plan.
- G.** Select a plan type: use the drop-down arrow to see options or use the '+' to create a new plan type.
- H.** Colour Scheme: click the pencil icon to change the colour scheme of your plan.

- I.** Business Unit: use the drop-down arrow to select a business unit.
- J.** Departments: click into the box to see available options, or start typing to search for a specific department.
- K.** Owner: by default you will be made the owner of the plan, to change it press the up and down arrows  and select the new owner in the list.
- L.** Cancel: click this to exit the screen and not create a new plan.
- M.** Save and close: click this to save and close your new plan.

EDIT PLANS

Once you have saved a new plan you will be taken to the below screen. You can also access this screen by clicking the edit button on the 'Plans' main page.

- A.** Save: click this to save your plan. Using the drop-down arrow will give you options to 'Save and Close' and 'Save and New'.
- B.** Delete: the plan will be deleted.
- C.** Go Back: Go back to 'Plans'
- D.** Initiate Incident: start an incident.

PLAN SETUP

Plan Checklist

The screenshot displays the 'Plan Checklist' interface. At the top, there is a navigation bar with links: 'Plan Checklist' (active), 'Plan Team Members', 'External Contacts', 'Incidents', and 'Simulation Workshops'. Below the navigation bar, there are buttons for 'Refresh', 'Column Chooser', and 'Excel'. On the right, it says 'Show 10 entries'. The main area contains a table with the following data:

Title	Actions
General disaster recovery plan checklist	
Testing BCP checklist	
Identification	
Terrorist Attack Checklist	

Below the table, there are two buttons: '+ Add Plan Checklist' (labeled A) and 'Clone Checklist' (labeled B). To the right of these buttons, it says 'Showing 1 to 4 of 4 entries'. In the bottom right corner, there is a blue circle with the number '1' (labeled C).

- A.** Add Plan Checklist: click to add a new plan checklist, you will be taken to another screen.
- B.** Clone Checklist: a pop-up screen will appear allowing you to select the checklist you want to duplicate.
- C.** Actions: here you will see the options to:

- Edit your plan
- Delete your plan

Plan Response Teams

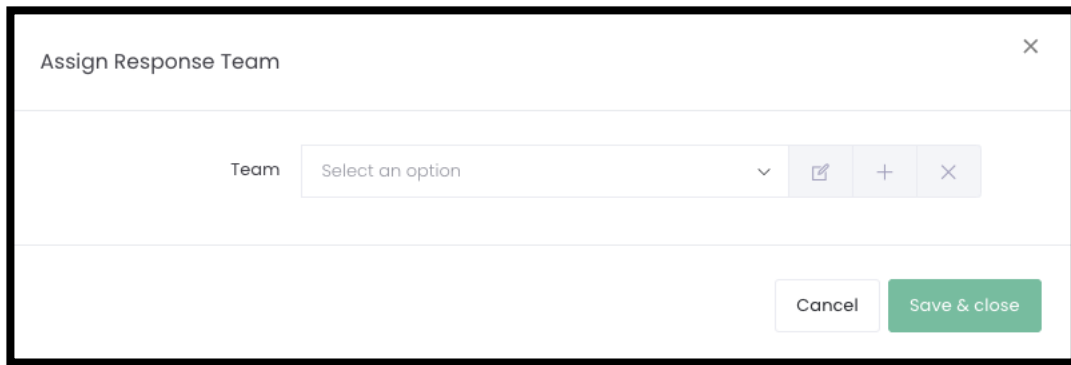

Important Note:

This tab is just a preview of the people who are within the teams you have assigned to this plan. While you can make some changes to the roles of the team members in this view, be aware that this change will impact any other plan who has the same assigned response team, so edit with care.

To edit the response team, roles, and members, you can manage the assigned teams using the buttons beneath the table and select to edit them from there. You will be redirected to a new screen for editing each team.

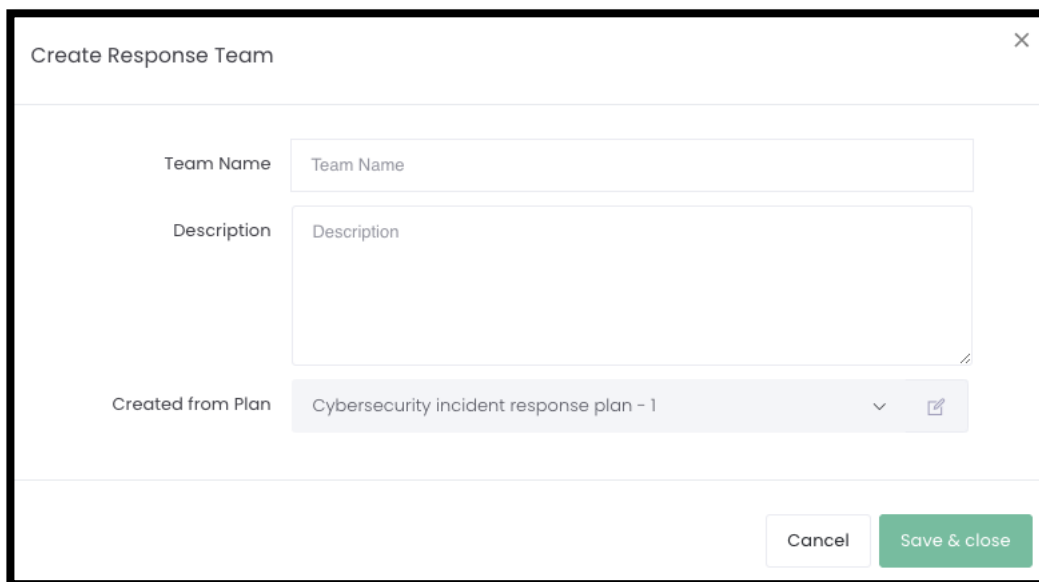

- A.** Top Menu: Here you have option to refresh, sort your table by a particular column header and export to an Excel spreadsheet.
- B.** Expand Selection: Pressing the plus symbol ⊕ will provide the mobile number for each member.

- C.** Assign Response Teams: allows you to edit, add and remove teams. The following screen will appear:

The 'Assign Response Team' dialog box features a title bar with a close button (X). Below the title bar is a 'Team' label followed by a dropdown menu showing 'Select an option'. To the right of the dropdown are three icons: a pencil (edit), a plus sign (add), and an X (remove). At the bottom right, there are two buttons: 'Cancel' and 'Save & close'.

- D. Create Response Team:** allows you to create a response team. The following screen will appear:

The 'Create Response Team' dialog box has a title bar with a close button (X). It contains three main sections: 'Team Name' with a text input field, 'Description' with a larger text area, and 'Created from Plan' with a dropdown menu showing 'Cybersecurity incident response plan - 1'. To the right of the dropdown is a pencil icon. At the bottom right, there are two buttons: 'Cancel' and 'Save & close'.

E. Actions:

- a.  Assign team members
- b.  Edit team member
- c.  Remove team member

CREATE NEW CHECKLISTS

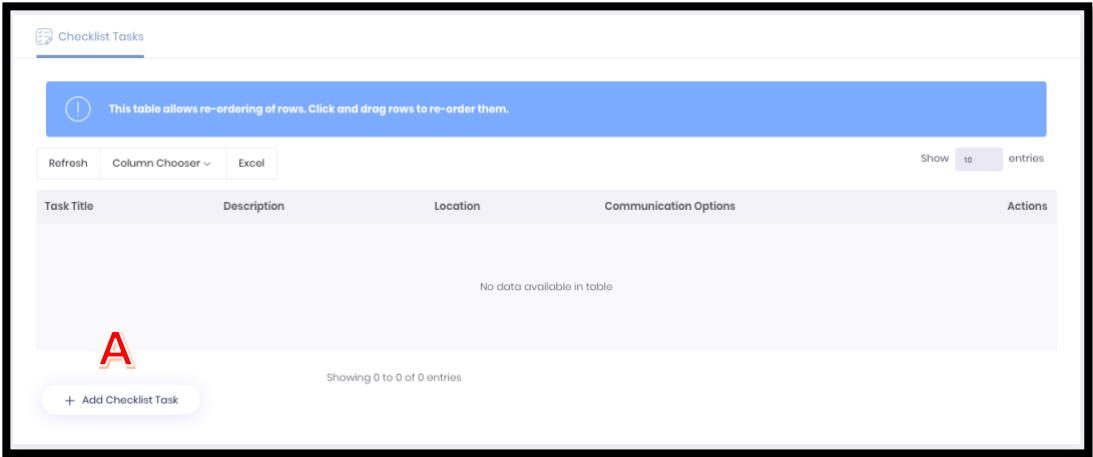

The screenshot shows the 'Create Checklist' form. At the top left is the title 'Create Checklist'. At the top right is a 'Save' button with a dropdown arrow (labeled D) and a '< List' button (labeled E). The form is divided into two main sections: 'Details' and 'Status'. The 'Details' section has a label 'A' next to a 'Title' input field. The 'Status' section has a label 'C' next to a 'Status' dropdown menu currently set to 'Active'. Below these sections is a 'Checklist Tasks' section with a label 'B' and a message: 'Please Save the record first before editing this section.'

- A.** Title: enter the title of your checklist here.
- B.** Checklist tasks: tasks will appear here, but only once the checklist is saved.
- C.** Status: use the drop-down box to select the status of your checklist, it will default as 'active'.
- D.** Save: click to save or select the arrow to see the options to:
 - Save and Close
 - Save and New
- E.** List: click to go back to list of checklists.

CREATING TASKS

Once you have saved the checklist the page will reload. The ‘Checklist Tasks’ area will change to the following image and you will be able to add tasks.

You will be able to change the order of task items by clicking and dragging them.

A. Add Checklist Task: clicking this will produce the following screen:

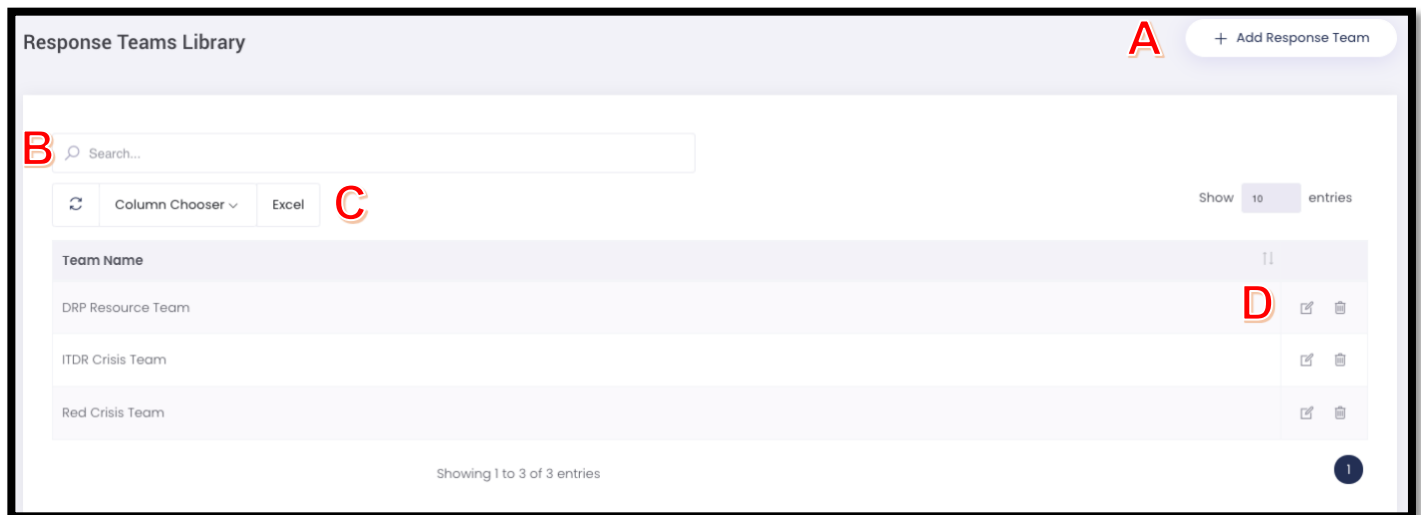

The screenshot shows a modal window titled 'Add Checklist Task'. It contains several form fields: 'Status' is a dropdown menu set to 'Open'; 'Task/Action summary' is a text input field; 'Task Description' is a rich text editor with formatting tools (bold, italic, highlight, link, unlink, bulleted list, numbered list, indent, outdent, undo, redo, quote) and a 'Preview' button; 'Assign task to' is a dropdown menu set to 'Assign Role'; 'Due at' is a date and time picker with a note 'The due date/time is for use during active incident only'; 'Attach documents' is a file upload area with the text 'Drop files here or click to upload.'; and 'Assign an Action/Activity' section with three checkboxes: 'Communication', 'Re-Location', and 'Review BIA Information'. At the bottom right are 'Cancel' and 'Save & close' buttons.

Note: Once you have created a task, you will be able to edit it under ‘Actions’. This will produce a similar overlay as shown above.

RESPONSE TEAM LIBRARY

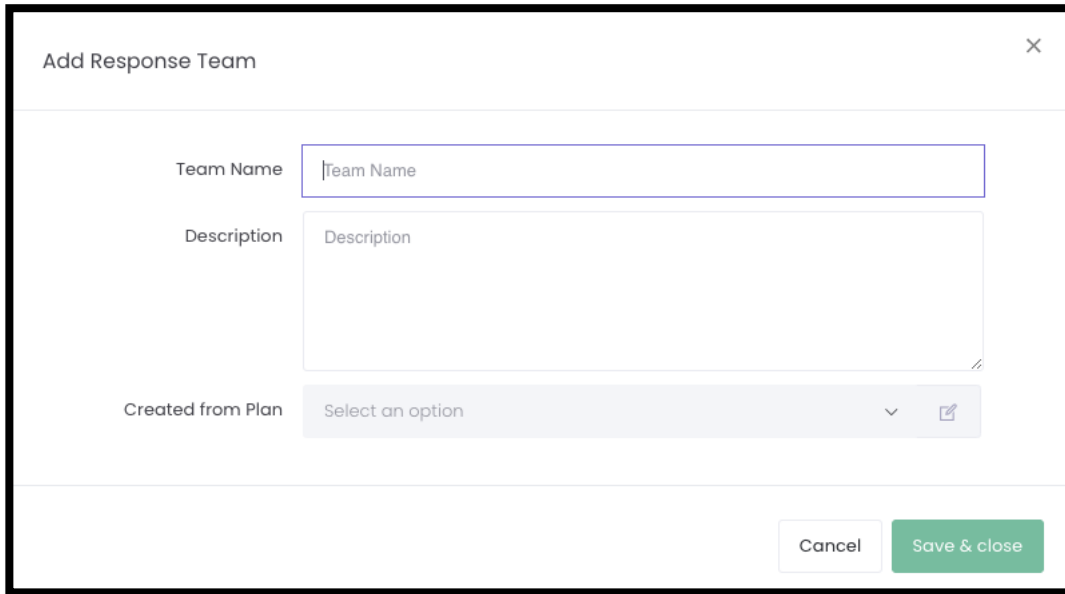

The Response Team Library can be found in the navigation bar under Plans > Response Team Library.

This houses the list of all response teams. This is where you can search for and organise response teams.

- A.** Add Response Team: Click this to add a new team.
- B.** Search: Search for teams here.
- C.** Top Menu: Use this menu to refresh the list, sort by a column header or the 'Excel' button to export the list to an Excel spreadsheet.
- D.** Actions: Here you will see the options to edit and delete each team.

Adding a response team will produce the below screen:

The screenshot shows a modal dialog titled "Add Response Team" with a close button (X) in the top right corner. The dialog contains three main input fields:

- Team Name:** A text input field with the placeholder text "Team Name".
- Description:** A larger text area with the placeholder text "Description".
- Created from Plan:** A dropdown menu with the text "Select an option" and a small icon to the right.

At the bottom right of the dialog, there are two buttons: "Cancel" and "Save & close".

Initially 'Created from Plan' will be greyed out, unless this team was created from a Plan, in which case it will be automatically populate the Plan name in this field.

CHECKLIST LIBRARY

The Checklist Library can be found in the navigation bar under Plans > Checklist Library.

This houses all checklists that exist under your organisation. This is where you can search for and organise checklists.

The screenshot shows the 'Checklist Library' interface. At the top right, there is a '+ New' button (labeled A). Below the header, there is a search bar (labeled B) and a 'Show Filters' toggle. Below the search bar, there are buttons for 'Column Chooser' and 'Excel' (labeled C). The main area is a table with two columns: 'Checklist Title' and 'Description'. The table contains six entries: 'General disaster recovery plan checklist', 'Identification', 'Terrorist Attack Checklist', 'Search', 'Search Plan 2019', and 'testing list'. Each entry has edit and delete icons (labeled D) in the right margin. At the bottom, it says 'Showing 1 to 6 of 6 entries'.

Checklist Title	Description
General disaster recovery plan checklist	
Identification	
Terrorist Attack Checklist	# Introduction This is some test. This is <i>*important*</i> . This is <i>_italics_</i> . # This is a second level heading # Heading 3
Search	
Search Plan 2019	
testing list	

- A.** Add a New Checklist: Click this to create a new checklist.
- B.** Search: Search for checklists here.
- C.** Top Menu: Use this menu to refresh the list, sort by a column header or the 'Excel' button to export the list to an Excel spreadsheet.
- D.** Actions: Here you will see the options to edit and delete each checklist.

Creating a new checklist will take you to the following screen:

Checklist Tasks

Please Save the record first before editing this section.

Note: You will have to save the checklist first before you will be able to add tasks.

INCIDENTS

To get started with Incidents, locate it on the left menu. Clicking this will produce the following page:

The screenshot shows the 'Incidents' page in the Business Olympian Group system. The left sidebar contains a navigation menu with options like Dashboard, Culture Workshops, BIA, Simulations, Plans, Incidents (highlighted), People, Reports, and various content and system settings. The main area displays a table of incidents with columns for Title, Description, Plan Type, Plan, Business Unit, Department, Initiated, Status, and Actions. Annotations A through F point to specific features: A points to the '+ New' button; B points to the 'Show Filters' toggle; C points to the 'Show 10 entries' dropdown; D points to the 'Actions' column; E points to the table headers; F points to the search bar.

- A.** New: allows you to create a new incident.
- B.** Show Filters: toggle switch on to refine incidents by 'Plan Type', 'Plan' and 'Status'.
- C.** Number of Results: click the grey box and a drop down will appear to the change number of results per page.
- D.** Actions: here you will see the options to:
 - Edit 
 - View 
 - Delete 
- E.** Function Bar: you can sort your results by clicking on the heading you would like to sort by.
 - Title
 - Description
 - Plan Type
 - Plan
 - Business Unit
 - Department

- Date Initiated
- Status

F. Search options:

- Refresh: allows you to refresh the list.
- Column chooser: add or remove headings from your function bar.
- Excel: export your results into an Excel document.

G. Search box: use this to search for a specific incident.

CREATE AN INCIDENT

STEP 1. INITIAL DETAILS

Create Incident Go Back

Initial Details **Incident Assessment**

A Name

B Description

C Business Unit

D Departments

E Incident Location

F Initiated On

G Color Scheme

H Select Plan

I Select Plan Team

J Save & Continue →

- A.** Name: the title of your incident.
- B.** Description: describes your incident.
- C.** Business Unit: use the drop-down arrow to select a business unit or type to see related options. This will refresh the departments that are under it.
- D.** Departments: click the box to bring up a list of departments and select from there.
- E.** Incident Location: begin typing and select the full address from the list that appears.
- F.** Initiated On: click the box to bring up calendar or type date.
- G.** Colour Scheme: select a colour by pressing the eye dropper symbol.

- H.** Select Plan: click on the drop down to select a plan from the list or the link symbol to go to record. This will refresh the teams that are related to this plan.
- I.** Select Plan Team: click the box to bring up a list of team members and select from there. Once this incident has been created this team will be notified.
- J.** Save & Continue: once everything has been filled out press to continue to next step.

STEP 2. INCIDENT ASSESSMENT

The screenshot shows a web interface for 'Incident Assessment'. At the top, there is a progress bar with two steps: 'Initial Details' (marked with a person icon) and 'Incident Assessment' (marked with a question mark icon). Below the progress bar, the 'Incident Assessment' section is active. It features a 'Questions' heading followed by four questions, each with a corresponding text input field:

- Question: 'Do you know of any other people in this field?' Input field: 'Do you know of any other people in this field?'
- Question: 'What is meant by the evaluation of risks?' Input field: 'What is meant by the evaluation of risks?'
- Question: 'What is the purpose of a toolbox meeting?' Input field: 'What is the purpose of a toolbox meeting?'
- Question: 'Which body has the authority to stop work?' Input field: 'Which body has the authority to stop work?'

At the bottom of the form, there is a 'Back' button on the left and a 'Submit' button on the right.

Here is where your Incident Assessment Questions will appear.

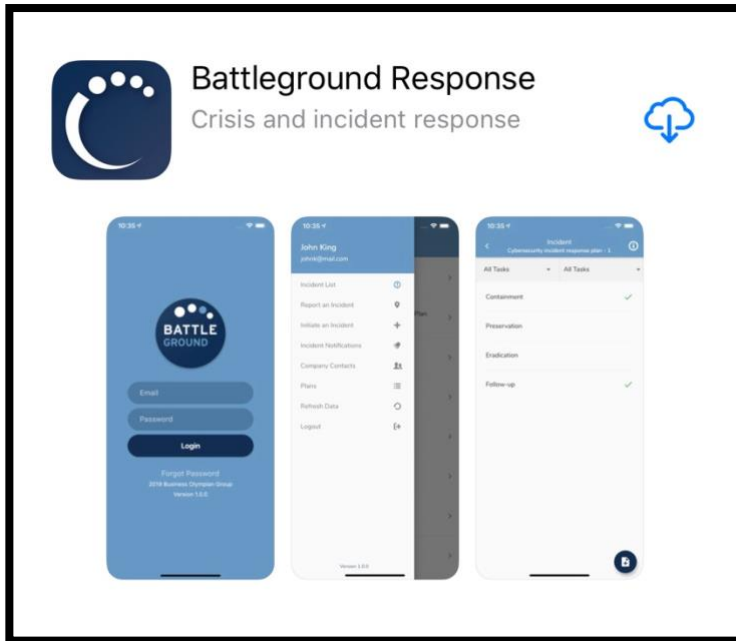

To set these up go to Configuration > Incident > Incident Assessment Question.

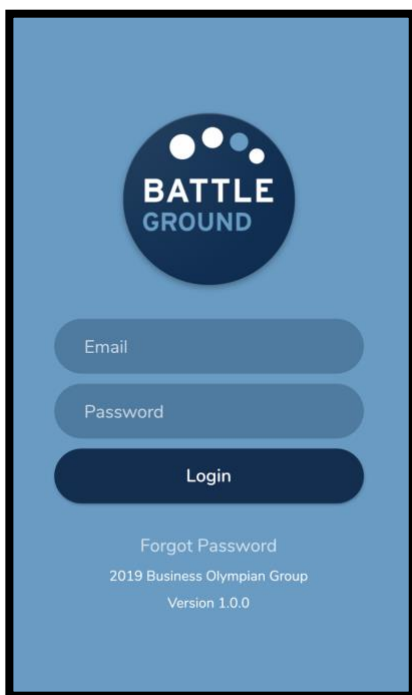

GETTING STARTED

Go to the 'Google Play Store' (Android Phone) or the 'App Store' (iPhones) and search for Battleground Response.

It should look similar to the image below. Download and install the app on your phone.

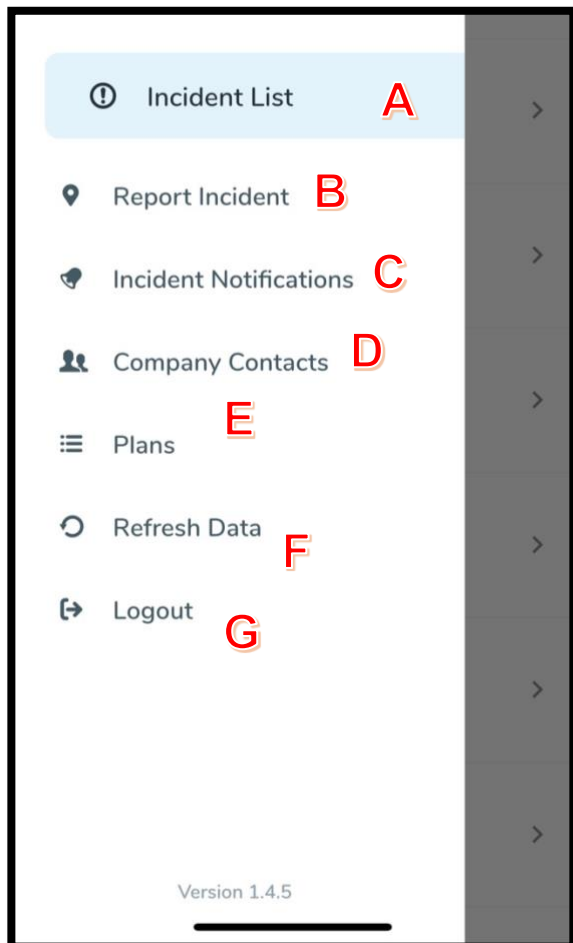

Download and install the application on to your phone. Once you open the app you will see the login screen.

THE MENU

Once logged in the app will first sync any data and then display the below page.

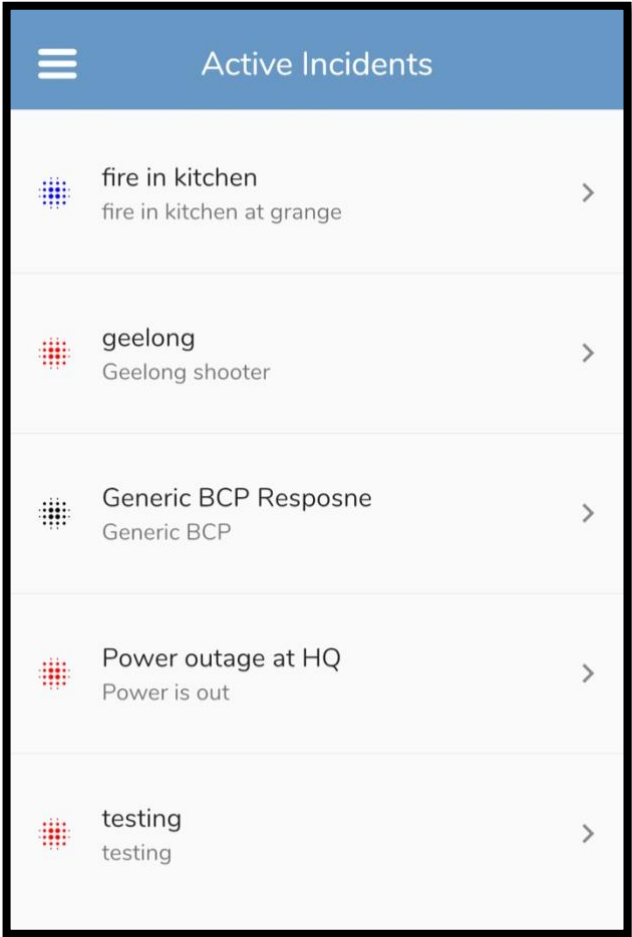

If you need to get back to this menu press  in the top left-hand corner.

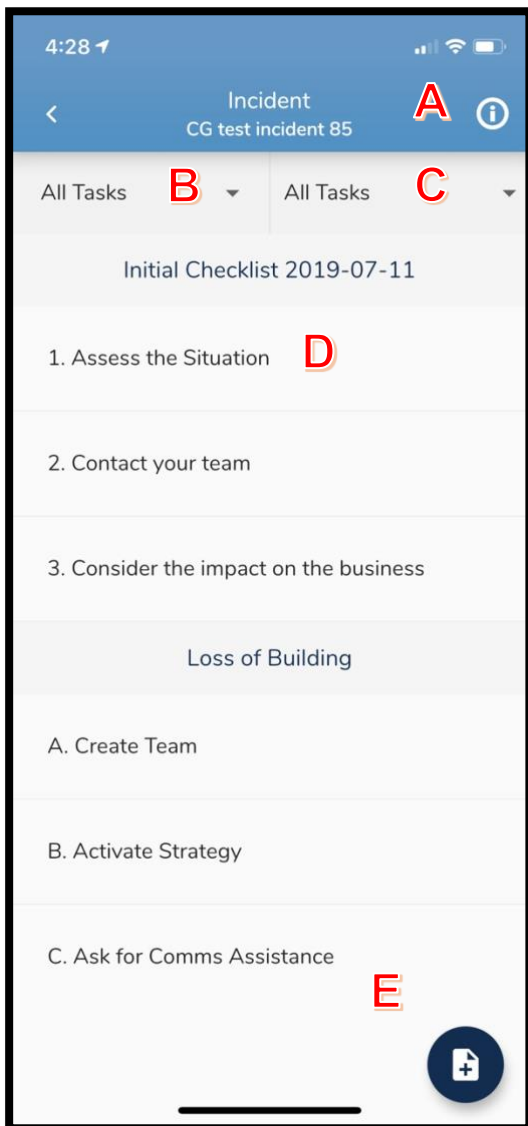

- A.** Incident List: displays a list of active incidents
- B.** Report an Incident: takes you to a form where you can add a new incident.
- C.** Incident Notifications: all notifications will be listed here. Only Crisis Managers will see this.
- D.** Company Contacts: displays a list of contacts.
- E.** Plans: view list of plans here.
- F.** Refresh Data: press this if new data has been added and you'd like to refresh data on the app.
- G.** Logout: use this to log out of your account.

INCIDENT LIST

Selecting Incident List on the main menu will bring you to screen with a list of active incidents similar to the one below:

Drilling into an incident will bring you to the following screen:

- A.** Get more information about the incident.
- B.** View My Tasks or All Tasks.
- C.** View All Tasks, Remaining Tasks or Completed Tasks.
- D.** Click onto a task to see additional information.
- E.** Create a task.

REPORT AN INCIDENT

To report an incident on the mobile app navigate to Report an Incident on the main menu.

This will take you to the following screens:

The image displays two mobile app screens for reporting an incident. Both screens have a blue header with a menu icon and the title 'Report Incident'. The status bar at the top shows the time as 3:46 and signal/battery icons.

Left Screen: Incident Details and Your Details

- Incident Details**
 - Incident Location: 252 Churchill Road, Prospect West (with a location pin icon)
 - Date/Time: 2019-08-07 15:46
 - Incident Title: (empty text field)
 - Incident Details: (empty text area)
- Your Details**
 - Your Name: Joe Blog
 - Your Mobile: 0405015385

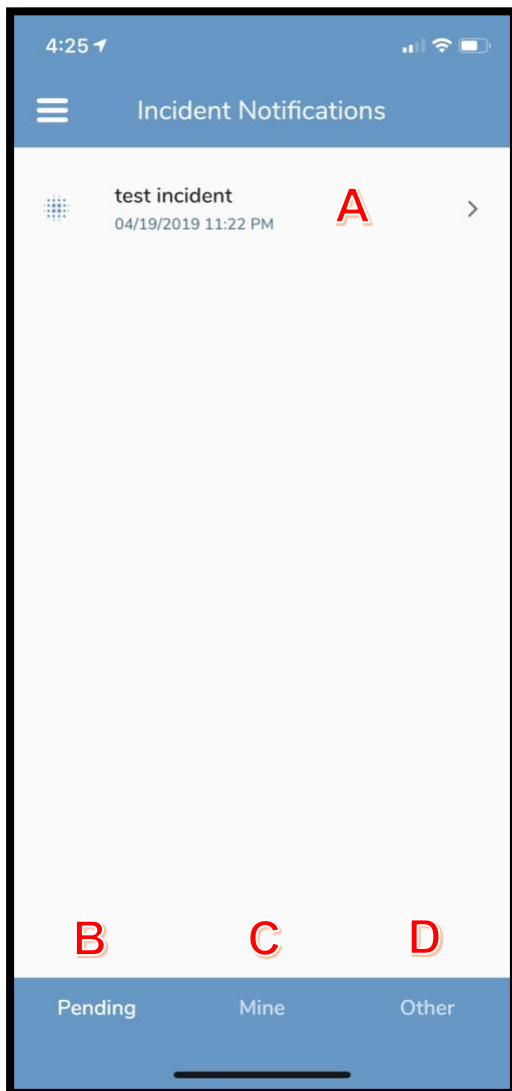

Right Screen: PRISE Questions and Submit Button

- PRISE Questions**
 - Are the people ok? (empty text field)
- Submit new incident for review** (blue button)

Once you have entered all necessary information in all the fields, press Submit new incident for review. This will send a notification to your organisation's Crisis Manager to review and acknowledge the incident.

INCIDENT NOTIFICATIONS

When a new incident is created, Crisis Managers will receive an Incident Notification which they can access from the Incident Notifications Screen.

- A.** List of incident notifications will be populated here.
- B.** Pending: tap to view all pending notifications that require action.
- C.** Mine: tap to view all notifications related to you.
- D.** Other: tap to view all other incident notifications.

NOTIFICATIONS

Drilling into specific notifications will bring up additional information.

- Created By
- Incident Information
- Business Unit
- Department
- Answers to Incident Assessment Questions

At the bottom of each notification you will have the option to Acknowledge Incident Report.

The image displays two mobile app screens for an 'Incident Notification'.

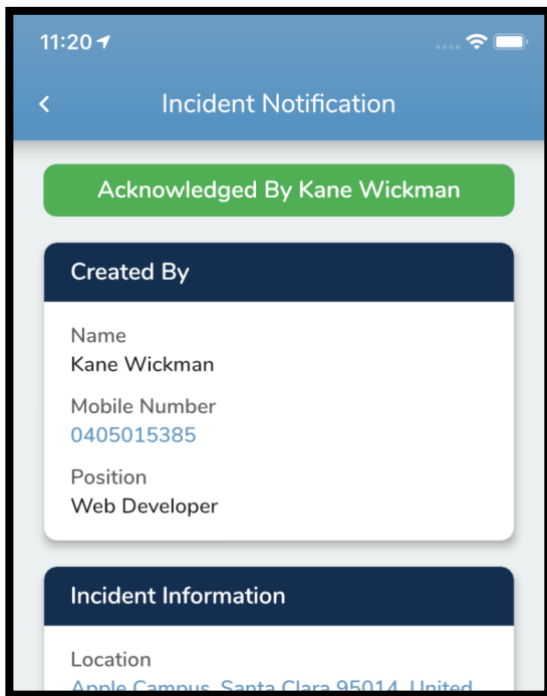

Left Screenshot (Summary View):

- Created By:**
 - Name: Kane Wickman
 - Mobile Number: 0405015385
 - Position: Web Developer
- Incident Information:**
 - Location: Apple Campus, Santa Clara 95014, United States
 - Title: A new incident
 - Description: The details of the incident
- Business Unit:**
 - Group Risk
- Department:**
 - Risk

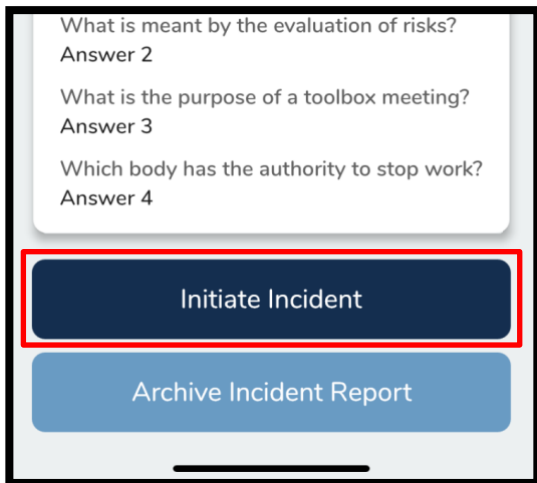

Right Screenshot (Detailed View):

- Title:** A new incident
- Description:** The details of the incident
- Business Unit:** Group Risk
- Department:** Risk
- Prise Questions:**
 - Do you know of any other people in this field?
Answer 1
 - What is meant by the evaluation of risks?
Answer 2
 - What is the purpose of a toolbox meeting?
Answer 3
 - Which body has the authority to stop work?
Answer 4
- Acknowledge Incident Report** (button highlighted with a red box)

Once the incident report is acknowledged a green notification bar will appear:

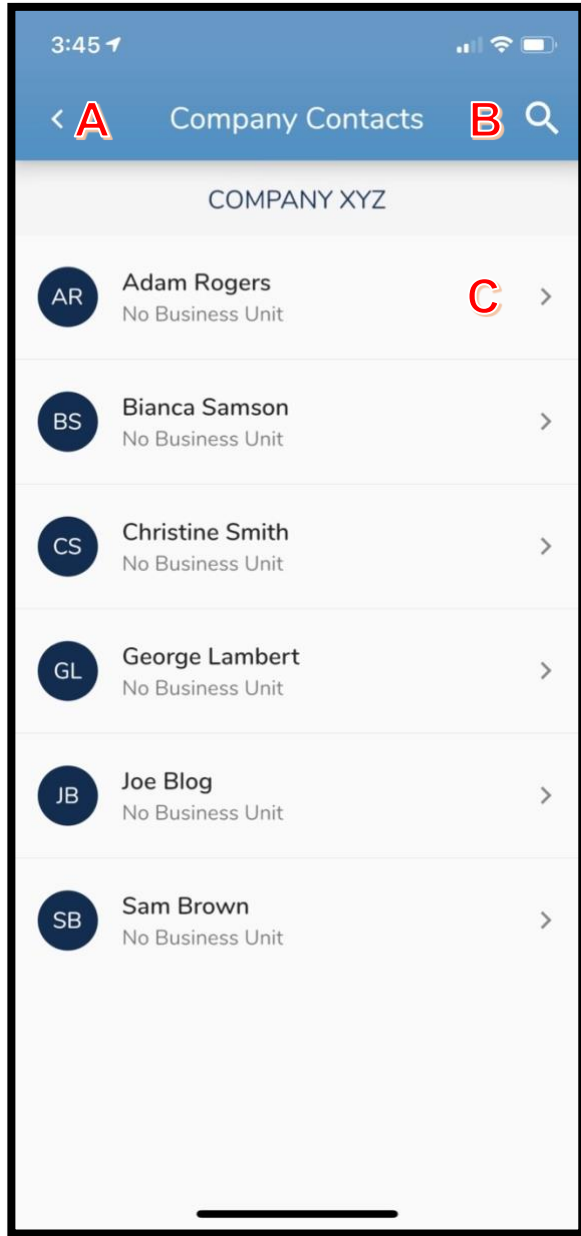

Scrolling down the bottom of the page you will be then allowed to initiate the incident or archive the incident report.

COMPANY CONTACTS

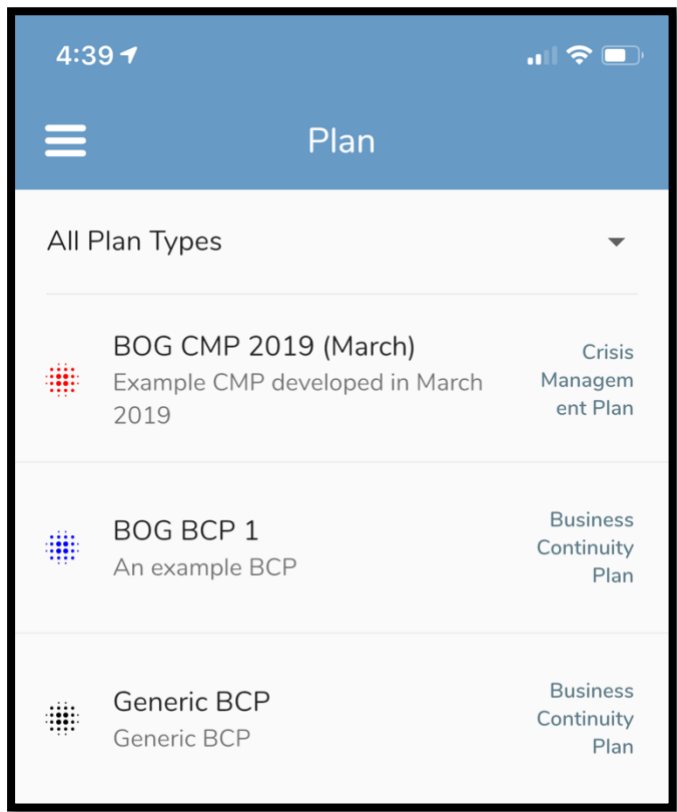

Selecting Company Contacts in the main menu will bring you the screen shown below.

- A.** Navigate back to the previous screen you were on.
- B.** Search for a contact.
- C.** Click on each contact to see additional information about the contact i.e. mobile number, email, business unit etc.

PLANS

Plans will take you to a list of plans as shown below:

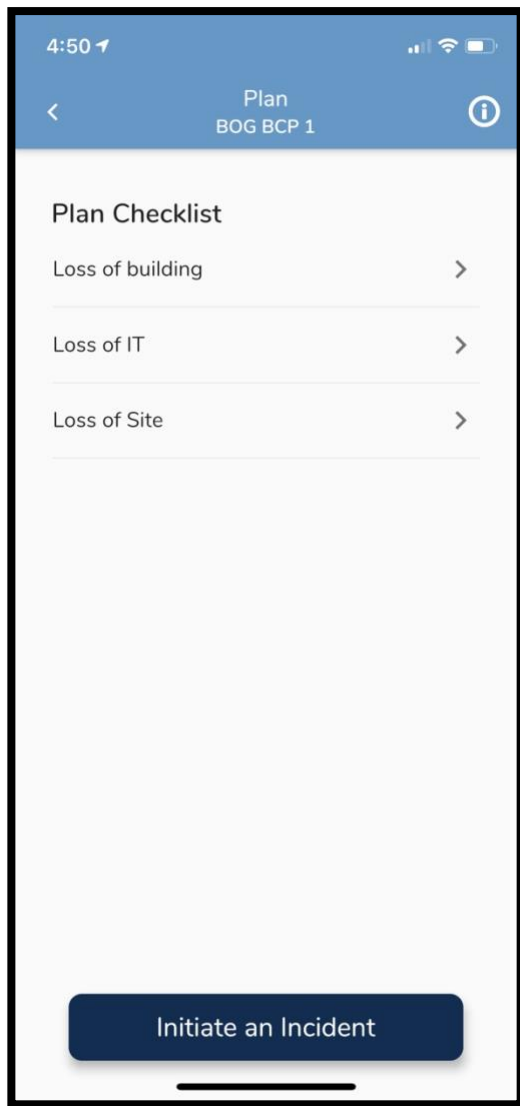

This list can be filtered by:

- All Plan Types
- Crisis Management Plan
- Business Continuity Plan
- Incident Management

Note: If you see this icon  in the top right-hand corner, clicking this will bring you back to the list of plans.

PLAN CHECKLIST

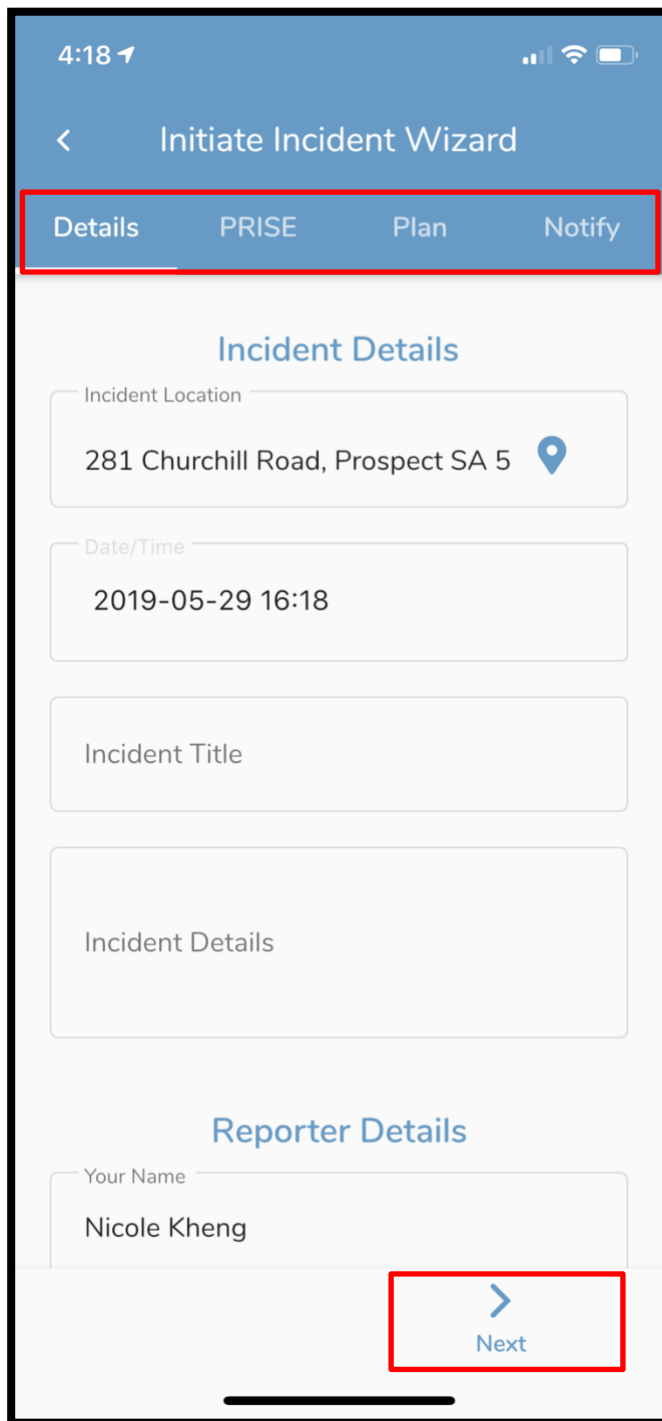

Drilling into each checklist will display the current checklists associated with this plan. You also have the option to Initiate an Incident.

INITIATE AN INCIDENT

Initiate an Incident will take you to the Initiate Incident Wizard as shown below. This can be done from a Plan or an Incident Report.

Note: You will only have access to this if you are a Crisis Manager.

The screenshot shows a mobile application interface for the 'Initiate Incident Wizard'. At the top, the status bar shows the time 4:18 and signal icons. Below the status bar is a blue header with a back arrow and the title 'Initiate Incident Wizard'. Under the header is a horizontal menu with four tabs: 'Details', 'PRISE', 'Plan', and 'Notify'. The 'Details' tab is selected and highlighted with a red box. The main content area is divided into two sections. The first section, 'Incident Details', contains three input fields: 'Incident Location' with the text '281 Churchill Road, Prospect SA 5' and a location pin icon, 'Date/Time' with the text '2019-05-29 16:18', and 'Incident Title' which is empty. Below these is a larger text area for 'Incident Details'. The second section, 'Reporter Details', contains one input field for 'Your Name' with the text 'Nicole Kheng'. At the bottom right of the form is a blue button with a right-pointing arrow and the text 'Next', which is also highlighted with a red box.

You can use the headings themselves to navigate through the wizard, although we would recommend using the next button that appears at the bottom of each section.
